DETAILED ACTION

Election/Restrictions

The previous restriction from 3/4/06 is vacated and a new restriction follows below.

This application contains claims directed to the following patentably distinct species: the distinct compounds in claims 93, 103 and 106. The species are independent or distinct because each is drawn to a different chemical structure. Applicant may choose one for each of the following: X1, X2, X3, and R1. Applicant may choose one compound from the group listed in claims 103 and 106.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted .

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
